

Hospital Electives National Survey (HENS)

We are inviting you to complete this national survey to help us better understand the current state and prevalence of elective, or mandatory, hospital medicine training options offered at your Institution.

All responses remain confidential and only aggregate results will be presented in reports.

Does your program have a hospitalist-training track (i.e. a designated longitudinal curriculum for residents considering or planning for a career in hospital medicine)?

- Yes
 No

Does your program have a hospitalist elective rotation (i.e. an elective rotation focused on hospital medicine which is distinct from mandatory inpatient rotations)?

- Yes
 No

Does your program have a mandatory hospital medicine rotation?

- Yes
 No

If you do not have a mandatory or elective hospital medicine rotation, are you considering starting one?

- Yes
 No

A mandatory or elective hospitalist rotation will be created within the following time frame?

- 1 year or less
 More than 1 year
 Unknown

What barriers exist to starting either a mandatory or elective hospital medicine rotation? Choose all that apply

- Lack of funding
 Lack of resident interest
 Lack of faculty interest
 Lack of a well described model rotation
 Other

Other barriers to an elective or mandatory hospital medicine rotation? (please describe)

The hospitalist elective rotation was created primarily out of interest from? Choose all that apply

- Residents
 Hospitalists
 Hospitalist leadership
 Residency leadership
 Clinical demands / Operational need
 Other

Please describe:

The mandatory hospitalist rotation was created primarily out of interest from? Choose all that apply

- Residents
 Hospitalists
 Hospitalist leadership
 Residency leadership
 Clinical demands / Operational need
 Other

Please describe:

The hospitalist elective rotation fill 'gaps' in standard residency curriculum in the following ways. Choose all that apply

- Clinical autonomy
- Non-clinical curriculum (QI, Patient Safety, High Value, etc)
- Preparation for first year attending
- Fills no gaps
- Other

Please describe:

The mandatory hospitalist rotation fills 'gaps' in standard residency curriculum in the following ways? Choose all that apply

- Clinical autonomy
- Non-clinical curriculum (QI, Patient Safety, High Value, etc)
- Preparation for first year attending
- Fills no gaps
- Other

Please describe:

What are the most important resident goals of the hospitalist elective rotation? Choose all that apply

- To provide residents with a 'real world' experience within hospital medicine
- To introduce hospitalist-specific competencies that they may not see elsewhere in residency
- To develop competencies required to succeed in academic hospital medicine
- Other

Please describe:

What are the most important resident goals of the mandatory hospitalist rotation ? Choose all that apply

- To provide residents with a 'real world' experience within hospital medicine
- To introduce hospitalist-specific competencies that they may not see elsewhere in residency
- To develop competencies required to succeed in academic hospital medicine
- Other

Please describe:

How many years has the hospitalist elective rotation been in existence?

How many years has the mandatory hospitalist rotation been in existence?

What is the duration of the hospitalist elective rotation?

- 2 weeks or less
- 2 weeks to 1 month
- more than 1 month

What is the duration of the mandatory hospitalist rotation?

- 2 weeks or less
- 2 weeks to 1 month
- more than 1 month

Who participates in the hospitalist elective rotation? (check all that apply)

- Medical students
- R1s (interns)
- R2s (2nd year residents)
- R3s (including R4, med/peds)

Who participates in the mandatory hospitalist rotation? (check all that apply)

- Medical students
- R1s (interns)
- R2s (2nd year residents)
- R3s (including R4, med/peds)

During the hospitalist elective rotation which of the following clinical activities do residents perform? (check all that apply)

- See medicine consults
- Co-manage patients with non-medicine services
- Take holdover admissions
- Admit new patients (not holdovers)
- Work overnight shifts
- Work weekend shifts
- Perform common internal medicine procedures (e.g. LP, thoracentesis)
- Work with other non-MD providers (e.g. PS, NP)
- Works off site at skilled nursing facilities or post-acute care
- There is no direct patient care

During the mandatory hospitalist rotation which of the following clinical activities do residents perform? (check all that apply)

- See medicine consults
- Co-manage patients with non-medicine services
- Take holdover admissions
- Admit new patients (not holdovers)
- Work overnight shifts
- Work weekend shifts
- Perform common internal medicine procedures (e.g. LP, thoracentesis)
- Work with other non-MD providers (e.g. PS, NP)
- Works off site at skilled nursing facilities or post-acute care
- There is no direct patient care

Please estimate how much time trainees on the hospitalist elective rotation spend on non-clinical time?

	0-25%	26-50%	51-75%	>76%	Don't know
Non-clinical time (e.g. teaching, research, QI)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The hospitalist elective rotation includes which of the following curricular elements delivered in any form (e.g. lectures, readings, discussions)? Choose all that apply

- Evidence-based practice in hospital medicine
- Career mentorship
- Quality improvement
- Patient safety
- Patient satisfaction
- Health care finances (payment models, health policy)
- Leadership development
- Value in health care (cost conscious care, Choosing Wisely)
- Billing and compliance
- Palliative and end of life care
- Other

Please describe:

The hospitalist elective rotation has increased trainee interest in a career in hospital medicine?

- Strongly agree
- Agree
- Neither agree or disagree
- Disagree
- Strongly disagree

The mandatory hospitalist rotation has increased trainee interest in a career in hospital medicine?

- Strongly agree
- Agree
- Neither agree or disagree
- Disagree
- Strongly disagree

The hospitalist elective rotation has increased trainee preparation for their first year as attending?

- Strongly agree
- Agree
- Neither agree or disagree
- Disagree
- Strongly disagree

The mandatory hospitalist rotation has increased trainee preparation for their first year attending?

- Strongly agree
- Agree
- Neither agree or disagree
- Disagree
- Strongly disagree

Please describe the most important differences between the hospitalist elective rotation and traditional ward rotations?

Please describe the most important differences between the mandatory hospitalist rotation and traditional ward rotations?

Please describe the strengths of your hospitalist elective rotation?

Please describe the strengths of your mandatory hospitalist rotation?

Do you have any additional comments about your hospitalist elective rotation you wish to share?

Do you have any additional comments about your mandatory hospitalist rotation you wish to share?

May we contact you to learn more about your hospitalist training electives/programs?

- Yes
- No
