## ERRATUM

The article "Skin-Lightening Agents: An Overview of Prescription, Office-Dispensed, and Over-the-counter Products" (*Cosmet Dermatol.* May 2013:18-26) incorrectly stated that fluocinolone acetonide 0.01%, hydroquinone 4%, and tretinoin 0.05% cream (Tri-Luma, Galderma Laboratories, LP) is not office dispensed in Table 1. Since February 2013, Tri-Luma is available to be office dispensed.

The staff of *Cosmetic Dermatology*<sup>®</sup> makes every possible effort to ensure accuracy in its articles and apologizes for the mistake. ■
