

# ACKNOWLEDGEMENT

---

The Revised Edition of *The Core Competencies* would not have been possible without the support and assistance of the Society of Hospital Medicine staff and countless practicing Hospitalists across the United States. The editors thank Nick Marzano for project coordination. Special thanks to Abbie Young for her thorough medical editing and updates to chapter introductions. The editors also thank their families for all their patience and support throughout the development process.

**Society of Hospital Medicine leadership and subject matter experts who provided content, review and guidance include:**
