

DISCLOSURE STATEMENT FOR AUTHORS

To ensure that all publications of Frontline Medical Communications Inc. maintain the highest credibility and remain free of bias, the publishers must be made aware of any commercial or financial relationships (for all authors) that might lead to conflict of interest charges stemming from statements made in this article. The publisher may request that an author's stated commercial or financial connection be disclosed in a footnote; such disclosure will not necessarily suggest that a bias exists. Note: All authors must complete this form.

Manuscript working title
