Appendix Figure 2. Pre-intervention Responses to Question 5: "Please select and rank all barriers to starting buprenorphine maintenance for inpatients at JHH"

- No discharge plan
- Medical team uses a taper instead of starting maintenance therapy
- I don't know how (lack of education on the topic)
- Discomfort with dosing
- Patients do not want to start maintenance
- Physician's fear of precipitating withdrawal
- Patients leaving AMA before maintenance can be started
- There is no order-set to help me do it
- Concern that patients will divert after discharge

Note: Respondents could select more than one barrier. Figure only shows barriers that received more than one response.
