

CMS Urges Timely Switch to HIPAA 5010 Format

BY MARY ELLEN SCHNEIDER

Physicians have a little more than 2 years to complete their transition to new HIPAA X12 standards for submitting administrative transactions electronically, according to Medicare officials.

As of Jan. 1, 2012, physicians and all other entities covered under HIPAA (Health Insurance Portability and Accountability Act) will be required to use the HIPAA X12 version 5010 format when submitting claims, receiving remittances, and sending claim status or eligibility inquiries electronically. The new standard replaces the version 4010A1 currently in use. The change will affect dealings not only with Medicare, but also with all private payers.

The Medicare fee-for-service program will begin its own system testing next year and will begin accepting administrative

transactions using the 5010 version as of Jan. 1, 2011. Throughout 2011, the Centers for Medicare and Medicaid Services will accept both the 5010 and 4010A1 versions. However, beginning on Jan. 1, 2012, only transactions submitted using the 5010 version will be accepted.

During a recent conference call to update providers, officials at the Centers for Medicare and Medicaid Services urged physicians not to wait until the last minute to make the transition to the new format.

"There's no room to delay. We cannot possibly convert all of the Medicare trading partners at the 11th hour," said Chris-

tine Stahlecker, director of the Division of Medicare Billing Procedures in the CMS Office of Information Services.

The switch is necessary, according to the CMS, because the 4010A1 version is outdated. For example, the industry currently relies heavily on companion guides to implement the standards, which limits their value.

The new version includes some new functions aimed at improving claims processing, such as resolving ambiguities in the situational rules and providing more consistency across transactions.

But Medicare officials urged physicians to analyze the new version care-

fully prior to implementation. Billing software will need to be updated, and business processes may need to be changed as well. "There are real changes in these formats," Ms. Stahlecker said.

A comparison of the current and new formats can be found at www.cms.hhs.gov/ElectronicBillingEDITrans/18_5010D0.asp.

Another reason that physicians should pay attention to the 5010 transition is that it paves the way for the move from the International Classification of Diseases, 9th ed., Clinical Modification (ICD-9-CM) code sets now used to the significantly expanded ICD-10 code sets on Oct. 1, 2013.

Ms. Stahlecker advised physicians to contact their system vendors as soon as possible to find out if their licensing agreement includes regulatory updates and to get the vendor's timeline for upgrading its systems. ■

Physicians should not wait until the last minute to make the transition to the new format. 'We cannot possibly convert all of the Medicare trading partners at the 11th hour.'

How Can A Holter Monitor Benefit Your Practice?

Our digital, PC based holter system can increase revenue, save time and expedite patient treatment.

Myth: It's not cost effective to buy a holter system for my practice.

Reality: Actually, at \$200 reimbursement under CPT Code 93230, the system pays for itself within a month or two! Indications include these approved ICD-9 codes: 780.2 Syncope, 785.1 Palpitations, 786.50 Chest Pain, and many others. How many of these patients do you see per month?

Myth: Holters are too time consuming for my busy practice.

Reality: If you're already doing EKGs in your office, a holter is simply a 24 hour EKG, and it takes less time to hook up a patient to a holter recorder! Our PC based, easy to use software provides complete interpretation and easy editing capabilities along with full disclosure.

Was \$4,995
NOW \$2,895

This price includes:

Fully EMR compatible Windows based software, digital flash holter recorder, flash card which records up to 72 hours of patient data, flash card reader and 5 or 7-lead cable. Two year warranty. Free lifetime software upgrades.
