

PRODUCT UPDATE

NEWLY AVAILABLE SINGLE-USE VAGINAL SPECULUM

Ceek Women's Health introduces the **Nella** single-use vaginal speculum for use during gynecologic examinations and procedures. Designed "by women for women, along with trusted clinicians to enhance patient comfort," according to **Ceek's** press release, the **Nella** speculum has a quiet operating mechanism, an LED light, and sidewall retractors. Its narrow shape allows for patient comfort and cervical visualization and because it is single use, it eliminates possibilities of cross contamination, according to the manufacturer. In addition, **Ceek** says it is an ergonomic tool, made from premium material, and is available in one size.
